

2019

Thomas A. Mattingly, Jr.

**Candidate for Maryland State Firemen's Association
Board of Trustees**

It is my belief that the volunteers, companies and families that have suffered from injuries and deaths, while in the line of duty, deserve the best possible service from the Board of Trustees. That service includes a prompt response to requests for benefits, outreach to our membership, and being educated on the details that surround these unfortunate accidents. Transparency and proper reporting of the decisions are a critical element in ensuring that the membership of the MSFA can trust that the Board of Trustees is performing their duties with integrity and due diligence.
